

Tiger Typing

3rd – 5th Grade Students

In order to be prepared for their future education, as well as the future job market, every student needs to be able to type accurately and quickly. In Tiger Typing, we focus on the basics of learning key location, touching the keys with the correct fingers, and improving both typing accuracy and speed through a variety of typing games and programs. In addition to keyboarding, students will also learn some basic text-based coding.

Instructor: Courtney Pascual

When: Wednesdays from 2:30 – 3:30 (12 weeks from August 16th – November 15th) No classes will be held during fall break and conference week.
